friendly, fraternal way. The boys in blue and the boys in gray have been having a magnificent time, and it is pretty certain that the next time they fight, it will be

Mr. Gus. C. Matthews, formerly editor of the old Springfield Daily Times, whose plant was purchased and its subscription list taken in by the owners of the REPUB- Main street is often long and wearisome. 1.10-a dozen or so years ago-has just left the Indianapolis Sentinel to become managing editor of the Memphis (Tenn.) Appeal, one of the most enterprising and prosperous papers in the south. Mr. Matthews is a graceful and vigorous writer and the husband of a brilliant Springfield lady (formerly Miss Nellie Frye) and we therefore predict for him a most successful

current issue of the Journal of United of a through route: it will never pay as a Labor in which he makes use of the follow- switch. The first point to be attended to

I know that in refusing to even touch a drop of strong drink I was and am right. In refusing to treat another to that which I do not believe to be good for myself to drink, I know I am right. In refusing to associate with men who get drunk, I know I am right. In not allowing a rum-seller to gain admittance into the order of the Knights of Labor, I know I am right. In advising our associates not to rent halls or meeting rooms over drinking places, I know that I am right. I have done this from the tay my voice was first heard in the council who of our order. My position on the setting of temperance is right. I am desired and will not alter it one jot or limited and will not alter it one jot or setting the public. Out of public satisfaction with provisions made in this direction will rich in this direction will grow an increased custom.

The Dark Side of Things.

Some people will persist in taking a gloomy view of everything. There is a min of that kind in Austin, living in ward 50. 18. A neighbor happened to drop in to ree him the other day and found everybody lively except the least of the family.

"How are you all coming on?"

"We are all tolerable except Bob. It is in sughing and joking because he is going fishing. I just know that he is going to come home drowned and howling with a fish hook.

dward Tallmadge Root, a resident the same rank as a scholar that his "Killed who! Jeminy?"

Why, no: there she is; but it might have Ya took in 1844. Young Root entered not re the Junior year and hence could been her, if she had been on the pavement had if a the appointment he would have below where the woman fell." there. Henviversity course had all been school in Seph enter the Yale Divinity main in New 187. His mother will remain in New 187. His mother will remain in New 187. until Edward come at 569 Elm street—
many Springfield fries his studies. The

Representation of the studies of Edward rejoice over Mrs. Root and

York visitor from Springfield does, on his arrival, is to go to see Central park. In this, he does well, but those Springfield people who have not seen Central park will do well to bear in mind that there is nothing in that park or any other, of corresponding dimensions, that is finer than the Kelly lake and its surroundings in Fetuneality in this city. It is itself a non clear peatedly heard him discuss the idiosyncra-Kelly lake and its surroundings in Fetuciff, in this city. It is, itself, a pure, clear body of spring water, with graceful "coast-line," having in its center an "emerald isle," and with its outlines and green banks, it presents a most charming picture, and a new one from each new standpoint one may take. It may be seen from four separate avenues, leading to it, and it is difficult for one to decide which of all is the most delightful. Mr. H. M. Shepherd, a most delightful. Mr. H. M. Shepherd, a Then he became abstracted, and a few minutes after added, "It doesn't seem credible that Kate Gaunt could be influa study, says the finest view is from the a study, says the finest view is from the enced in that way; but, after all, who can top of the slope north of it. This is the lot tells. Something was said to kim about owned by Mr. William Foos, who purchased the beautiful swans who live in the lake, in New York, and in honor of whom lake, in New York, and in honor of whom and his wife, they are respectively named, to a dodge of that sort. Ryder had more "William" and "Sarah." These swans, it is said, never leave the lake except There was no apparent recollection that to climb this Foos slope, look about her deverness, whatever it might have return visiting no other locality-and this is certainly a remarkable that Lucy Fountain, when expecting to be coincidence, or, perhaps, an indication that drowned by the upsetting of a pleasure swans know more about some things than boat, whispered to David Dodd that if she people think they do. Mr. Shepherd, we to him just before they went down. Reade may add, has done something quite credit-was asked what it was she intended to tell was asked what it was she intended to tell

second the Bester people think they do. Mr. Shepherd, we able, at his own expense, in the way of adorning the grounds, having discovered and transferred from the country to his lot, adjoining the Foos lot, and overlooking the later, "What do you think she meant to adjoining the Foos lot, and overlooking the later, "Nothing important, perhaps Ah, well, Dadd may know; she probably told lake, a remarkably-shaped bit of granite, with the country to his lot, adjoining the Foos lot, and overlooking the lake, a remarkably-shaped bit of granite, well, Dadd may know; she probably told race at New London, Ct., the even of Colake, a remarkably-shaped bit of granite, and so pierced it as to provide for a beauti-ful fountain. Seats should be placed on the west slope, adjoining the lake, so that strollers could sit down and enjoy the view more have succeeded than he could have every evening except Sunday, and is delivered at the rate of loc. per week. Single from that point, by the hour, if they desire flown to the moon. He was the embodione can see the new Mast house, in the distance, with the appearance of an old-world plete lamily newspapers in the country castle. On July 4th, 1887, the writer saw a castle foliage, the first he has meth by name, paid a visit to Tasmania, the base and miscellany. It per year, few bits of scarlet foliage, the first he has yet noticed this year.

Indeed, Ferneliff is, as a whole, unique SPRINGFIELD, OHIO. playing at intervals, it presents a picture

> avenues. The Italian marble figure cut in the Carrara quarries - with stands on top of the Bacon monument, has been admired the Buxton monument, near by, is certainly Ludlow. The monument is, as he was clean, white, symmetrical, maje-tic always commanding admiration and re-

Many are now making especial visits to Journal. Fetneliff, to see the new monument -a granite pulpit, covered with an open Bible -standing over the grave of the late Rev. Joseph Clokey, D. D. This has already been fully described in these columns, but hardly too much can be said in praise of the appropriateness and beauty of the con-

and view scenery unexcelled in its line in any of the parks of America or Europe.

born great and some are born in Ohlo," of oil or gas for coal has come to be recognized as a thing of the near future." We This is the fifth of July. "Silence, like quote as follows from the Review's article

The heat units of crude petroleum have been erroneously stated to be 27,531. One thousand Philadelphia brewery em-loyes will leave the Knights of Labor on loyes will leave the Knights of Labor on late, after many tests with the best instraments to be obtained for that purpose. In comparing the caloritic properties of petroleum with coal it must be borne in mind that A sky rocket destroyed the Weber mait house at Cincinnati, Monday night, involving the lives of three men and a pecuniary loss of \$150,000. The fring of that rocket was a costly bit of fun.

Learn with coal it must be borne in mind that with coal The Knights of Labor took a leading coal theoretically contains about 14,300 heat units, that figure is by reason of these impart in celebrating the Fourth at Columbus purities reduced to about 8,000. Pure carbon—charcoal, for instance—contains 14,500 heat units. Considering, therefore. John Sherman made a presentation of the the imperceptible waste in the burning of advantages and advances of civilization in oil and the excessive waste in the burning of the United States, and denounced vigorouswhile theoretically the relative proportion of heat evolved in the combustion compared with coal is as 20.2 is to 14.3, the Pennsylvania union soldiers and the con-federates of Pickett's brigade have been compared with coal is as 20.2 is to 14.3, the proportion practically considered, is in fa-vor of oil as 19 is to 8, or 8.5 at the furthfighting over the series of battles of Gettys- est. We may quite safely assume, then, burg, on the spot, since July 2d, in a very that the heating capacity of oil is considerably featured way. The boys in blue

with each other on the same side and not is the southern terminus. It is true that passengers can go from Ferneliff gate to East street or the west end stables on one without transfer or delay and the delay at street, to the East street shops; and from (Ga.) Banner. south Yellow Springs to the Lagonda stables, and we shall have three good routes, each going from somewhere to somewhere else, and all filling a public want-and filling it satisfactorily. Then, with this arrangement, there will be extra street-car service on Main from Plum to Lunestone. Mr. Powderly has a contribution in the The Plum street line would pay as a part by the management is the accommodation I know that in refusing to even touch a of the public. Out of public satisfaction

home drowned and howling with a fish hook sticking in him somewhere."

"Well, the rest seem to be cheerful." by the son of the late Rev. Ed-Root, formerly pastor of the Con-ping about because she is going to a camiy pulling, but I know something will happen to ber. I read of a girl in Philadelphia only last year who was coming from a candy pulling, when a drumken man threw his wife out of a three story window and killed her."

CROUP, WHOOPING COUGH and Cure. For sale by F. A. Garwood.

About the first thing the average New Of all modern authors probably the York visitor from Springfield does, on his most singular in his mental attitude been, was his own invention. In "Love must die she would have something to say and if he had attempted it he could no ment of intellectual candor.-Atlantic

and being much interested in its indigenous vegetation, examined the numeror varieties of the encalyptus which flourish contained in the world. With the Lagonda on one side and the wall of fern-and-lichencovered rocks on the other, with fountains playing at intervals, it presents a picture one could afford to go far to see.

Art has done much to supplement nature. in that island. His investigations brought have often said, is unequalled by any park him into contact with a small black bee, Art has done much to supplement nature

It was carefully studied by M. Thomas

Those who would like to travel and see fine
Mr. Sabin said, "Never mend, boys; thank
things, in other localities, and yet lack the
means, should make excursions to Ferucliff

Was quite impossible to serve the dinner.
Mr. Sabin said, "Never mind, boys; thank
you just the same," and all left the
board. There is a joke in this story. It is true that Mr. Hoyt and his comrades invited Mr. Sabin to a spread, but it is invited Mr. Sabin to a spread, but it is also true that they thought that the formulation of the first might say something to stop it, and so instructed him. The short life is claimed they are the remains of men that instructed him. The short life is claimed they are the remains of men that instructed him. The Iron Trade Review, of Cleveland, instructed him. The chet did as he was times, years ago. lieving that that range had been blown up.-Chicago Herald.

"The Spectacle Mission."

A provincial contemporary contains an account of a new missionary enterprise-one for distributing spectacles among the noor. This may seem at first sight a very the very genius of kindness. to the blind" was one of the most evensable boasts of Job in his moments of pardonable complacency. Such may be the satisfaction of Dr. Edward Waring, of Maida Valc, who is credited with initiating this piece of benevolence among the in-mates of St. Giles' workhouse and the Cleveland Street Sick asylum years ago. Such a service implies much trouble and time. It is of little use to supply spectacles to the poor without much personal trouble to suit the glasses to sight. We can only hope that Dr. Waring's example will be fruitful, and that the intelerable irksomeness of life in those who have the disposition to work without the means of London Lancet

How Madstones Are Formed.

Since the people have been convinced that there is virtue in madstones they are pringing up all over the country. at Uulon Point a few days ago we saw a The P.um street railway line doesn't pay Banks county biscuit. The gentleman -and never will pay so long as Main street who owns this stone says it came from Alabama, where there was a large deer lick. They are said to be found in deer taken into the animal's stomach there fare; but that is not the thing people care forms the madstone. The gentleman also most about. They wish to go up town informed us that he had seen two madstones broken open, and in one of them was found a bullet and in the other an arorn. Madstones are getting in demand, Let ears run from Ferneliff to south Lime- and a fine market will be open if the dogs stone: from the west end stables, on Main continue to have the distemper.-Athens

Drawing the Line.

A Texas editor announces himself as follows: "We were born on the Texan frontier, have been reared on the broad store, run a mili, practiced physic, lectured on phrenology, edited a newspaper and run a drug store, but we have never been whipped, and when any person undertakes it he will be pretty certain to regret it till be dies, 'place God,' as the Irishman said, 'that he lives that long.'
